

IRC Single Event Rating (SER)

Conditions of Issue and Use

1. A 'Single Event Rating' (SER) is an IRC rating (TCC) issued by the IRC Rating Authority for use by a GBR or FRA boat for one race or regatta (or part of) comprising races run over not more than 9 consecutive days including any lay days.

Organising Authorities shall apply to the IRC Rating Authority for permission to accept GBR or FRA boats holding Single Event Ratings in their event, for all or selected classes. In addition to invoking IRC Rules, the Notice of Race shall include:

With the permission of the IRC Rating Authority, IRC Rule 8.2 is modified to include GBR or FRA boats holding Single Event Ratings.

[if selected classes then add *"..in the following classes:..."*]

The IRC Rating Authority will supply an Organising Authority with data for each GBR boat holding a valid Single Event Rating for that race or regatta. FRA boats applying to enter the event using an SER must supply the organiser with a copy of the SER certificate. Organising Authorities shall not use the information in this for scoring any boat in any race other than those for which the Single Event Rating is valid.

2. An IRC SER certificate will be issued showing the relevant validity dates; it will be issued no earlier than approximately one month before the relevant event. Copies of the certificate will be available (on payment of a fee) to interested parties under the same conditions as the supply of copy certificates defined by IRC Rule 8.14.
3. Single Event Ratings will not appear on IRC TCC listings.
4. A Single Event Rating TCC is equivalent to and fully compatible with the TCC on a valid IRC certificate.
5. Single Event Ratings are not available to a boat that already holds a valid IRC certificate.
6. Single Event Ratings are not available to boats with LH greater than 22.00m.
7. Single Event Ratings are available only to GBR and FRA boats and are not available to any other overseas boats competing in GBR events.
8. Boats holding a Single Event Rating will not be permitted to run trial certificates or hold a Secondary certificate but may submit different data for two separate Single Event Ratings. A standard amendment fee will be charged for changing data after the certificate has been issued.

9. Except with the express permission of the IRC Rating Authority, the validity of a Single Event Rating shall be consecutive days only, including lay days.
10. A boat is not permitted to hold Single Event Ratings for more than two separate events in any certificate year.
11. A GBR boat applying for a Single Event Rating shall complete and return an IRC application via the MyIRC application portal <https://myirc.rorcrating.com>.
12. A FRA boat wishing to apply for a Single Event Rating shall apply via the IRC Boutique at <https://ycf-club.fr/>.
13. Completed application forms for GBR boats shall be submitted at least 14 days before the first day of validity. Applicants shall state the event and the dates for which the Single Event Rating is to be valid.
14. The fee for a GBR Single Event Rating will be as published by Seahorse Rating Ltd (fee per metre LH + fee per day of racing).
15. GBR boats holding Single Event Ratings, whether valid or expired, wishing to upgrade to a full IRC certificate year will receive a discount on the certification fee.
16. The IRC Rating Authority reserves the right to refuse to issue a Single Event Rating without stating any reason.
17. The IRC Rating Authority reserves the right to charge full IRC certification fees in cases of abuse of these Conditions for the issue and use of Single Event Ratings.
